# CMSIS-Toolbox 2.0 Project

- https://github.com/orgs/Open-CMSIS-Pack/projects/5
  - it includes issues (not PRs) from repositories
    - Open-CMSIS-Pack-Spec
    - devtools
    - cpackget
    - cbuild
    - cmsis-toolbox

# For Review

- [cpackget] File permission for 'generator' #117
- [spec] May we please increase the Cvariant length > 32? #194
- [csolution] *.genlayer.yml to specify dependencies on components #637
- [csolution] package requirements not taken into account #659
- [csolution] How to add a compiler toolchain to CMSIS-Toolbox #493
    - Review comments provided - updates required (In Progress)

# Wrap Up

Actions for all:

- Review "Proposals" + ToDo in [Manual](#)

- Review Issues in [devtools](#), cpackget, cbuild and [Open-CMSIS-Pack-Spec](#)

  - Add to project: CMSIS-Toolbox 2.0

- Agree on feasible implementation timeline (until 15. Feb 2023)

<br>

- Other review "asks" before finally closing issues:

  - Anything still open for "Discussion Done" items.

  - Please help to resolve tickets with label: [question](#)

<br>

- Next Open-CMSIS-Pack meeting: 31st Jan. 2023 @ 16:00 CET (15:00 UK)

# Thank you
