Wrap Up

Instances of meeting with focus on software pack's content topics

- From 2023-04-18 – bi-weekly (every two weeks) we will review:
 - **18. April:** How to create scalable software packs to maximize software re-use
 - **2. May:** Structure of Device Family Packs (DFP) and Board Support Packs (BSP)
 - **16. May:** CI test process for validation of reference applications

Timelines:

- CMSIS-Toolbox 2.0.0 for June 2023
 - Pre-releases mid April and May 2023
 - Including changes breaking compatibility

Next Open-CMSIS-Pack meeting: 11th Apr. 2023 @ 16:00 CET (15:00 UK)

- About: [Open-CMSIS-Pack Specification](#) and [CMSIS-Toolbox topics](#)

Thank you
